

## INTERNET GUIDANCE

The World Heart Federation has its own website, of course, which is daily updated with new information on everything that happens in this important international organization, especially in the forum founded by the Federation, i.e. Forum for Global Cardiovascular Disease Prevention, which is an association of 56 international societies, foundations, etc. Special attention is paid to the prevention and treatment of cardiac diseases, providing valuable data for both physicians and patients.

**[www.worldheart.org](http://www.worldheart.org)**

Website of the European Society of Cardiology may also be of great value:

**[www.esc.be](http://www.esc.be)**

however, it also holds for the British website:

**[www.cardiacrisk.org.uk](http://www.cardiacrisk.org.uk)**

REMEMBER, OUR WEB ADDRESS IS:
